

Industry: EDP

Application: Computer System

Summary: This 230 Watt, four output supply can run off of AC or DC inputs. Designed for a high reliability application, it conforms to MIL STDs for shock, vibration and EMI/EMC.

Specifications

Input: 120Vac, 50-60Hz, single phase or 120Vdc

Output: +12Vdc @ 76 Watts
-12Vdc @ 76 Watts
+15Vdc @ 38 Watts
-15Vdc @ 38 Watts

Total Power: 228 Watts

Dimensions: 9.0"L x 6.0"W x 5.25"H

Weight: 5.5 lbs.

Type of Cooling: Conduction

Other Features: Remote voltage sense

**Safety Agency
Conformance:** EN 60950

**EMI/EMC
Conformance:** MIL STD 461D (Partial)

Shock: MIL-S-901D Grade A Class 1 Type A

Vibration: MIL-S-167-1 Type 1, 4-25 Hz

**C-2001: Dual Input, 4 Output
Computer System Supply**
