Key Facts:

Headquarters: Andover, MA, USA

Additional Locations: Sunnyvale, CA; Lombard, IL; Smithfield, RI; Austin, TX; Germany; UK; France; Italy; Hong Kong; Japan

Products: AC-DC and DC-DC Component, Configurable and Custom Power Solutions and Accessories

Customers: Original equipment manufacturers (OEMs) in the communications, data processing, industrial control, test equipment, medical, and military electronics markets.

Manufacturing:

Power components are manufactured using highly automated processes in Vicor's ISO 9001:2000 registered facilities in Andover, MA.

Customer Support:

In addition to an international network of sales representatives and distributors, Vicor maintains offices worldwide. Applications engineers based at these offices answer technical questions. Vicor Express helps to minimize time to market by providing rapid delivery of selected Vicor products in prototype quantities.

Calibration: Computerized calibration system for Inspection, Measuring and Test Equipment, in accordance with ISO9001: 2000, which includes National Institute of Standard and Technology (NIST) traceable documented calibration control standards. All calibrated instruments have labels attached indicating gage ID number, date of last calibration, calibration technician identification and next calibration due date.
